

Stores Up To 250 Songs!

To Download Music

1. Turn on the MP3 player. (Power switch is on the side of the MP3 Player)
2. Connect the unit with your PC using the USB cable provided.
3. Follow the on screen instruction if Windows ask you to install it first
4. Copy & Paste the MP3 music files to the MP3 Player. (Please note this unit will not work with iTune and is not designed to work with iTune. Also it won't play music files that have DRM built in. Read here http://en.wikipedia.org/wiki/Digital_rights_management if you don't know what DRM is)
5. Unplug the USB cable. Your music is ready for playing

To Play Music

1. Turn on the MP3 Player.
2. Press "Play" button to start playing. You should be able to see light flashing on the side of the player. Press "+" or "-" button to increase or decrease volume. Press "Forward" or "Backward" button to go to the next or previous song. Press "Play" button again to stop playing

To Recharge Battery

1. Connect the Unit with your computer using the USB cable provided
2. Recharge takes approximately two hours

Note: You will not be able to play the music when the unit is connected to your PC.
